# Investment statistics – Manufacturing sub- industries, Canada

1960-1977

# Statistique des investissements – Sous industries manufacturières, Canada

1960-1977

## Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

## How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Capital Expenditures Section,  
Construction Division,

Statistics Canada, Ottawa, K1A 0T6 (Telephone: 995-9013) or to the Statistics Canada reference centre in:

St. John's	(772-4073)	Winnipeg	(949-4020)
Halifax	(426-5331)	Regina	(359-5405)
Montreal	(283-5725)	Edmonton	(420-3027)
Ottawa	(992-4734)	Vancouver	(666-3691)
Toronto	(966-6586)		

Toll free access is provided in all provinces and territories, **for users who reside outside the local dialing area** of any of the regional reference centres.

Newfoundland and Labrador	Zenith 0-7037
Nova Scotia, New Brunswick and Prince Edward Island	1-800-565-7192

Ontario	1-800-268-1150
Manitoba	1-800-282-8006
Saskatchewan	1(112)800-667-3524
Alberta	1-800-222-6400
British Columbia (South and Central)	112-800-663-1551
Yukon and Northern B.C. (area served by Northwest Telephone Co.)	Zenith 0-8913
Northwest Territories (area served by Northwest Telephone Co.)	Zenith 2-2015

## How to Order Publications

This and other Statistics Canada publications may be purchased from local authorized agents and other community bookstores, through the local Statistics Canada offices, or by mail order to Publication Sales and Services, Statistics Canada, Ottawa, K1A 0V7.

## Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinarolingue et le système d'extraction de Statistique Canada.

## Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Section des dépenses d'investissements,  
Division de la construction,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 995-9013) ou au centre de consultation de Statistique Canada à:

St. John's	(772-4073)	Winnipeg	(949-4020)
Halifax	(426-5331)	Régina	(359-5405)
Montréal	(283-5725)	Edmonton	(420-3027)
Ottawa	(992-4734)	Vancouver	(666-3691)
Toronto	(966-6586)		

Un service de communication sans frais est offert, dans toutes les provinces et dans les territoires, aux **utilisateurs qui habitent à l'extérieur des zones de communication locale** des centres régionaux de consultation.

Terre-Neuve et Labrador	Zénith 0-7037
Nouvelle-Écosse, Nouveau-Brunswick et Île-du-Prince-Édouard	1-800-565-7192

## Symbols

The following standard symbols are used in Statistics Canada publications:

. . figures not available.

. . . figures not appropriate or not applicable.

— nil or zero.

- - amount too small to be expressed.

P preliminary figures.

† revised figures.

x confidential to meet secrecy requirements of the Statistics Act.

## Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

. . nombres indisponibles.

. . . n'ayant pas lieu de figurer.

— néant ou zéro.

- - nombres infimes.

P nombres provisoires.

† nombres rectifiés.

x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

## Introduction

The totals in this publication represent the sub-industry detail for the same 20 major industry groups of manufacturing shown in Table 3 of the report *Private and Public Investment in Canada* (Catalogue 61-205). Final estimates in the publications for the years 1960 to 1977 are therefore based on the same questionnaire surveys of establishments engaged in manufacturing.

For the purpose of this historical publication, the 1960 to 1971 data were converted to the 1970 Standard Industrial Classification and all the amounts represented in this publication are final estimates.

Information on capital spending intentions provides a useful indication of market conditions both in the economy at large and in particular industries. Since such expenditures account for a large and relatively variable proportion of gross national expenditures, the size and content of the investment program provides significant information about demands to be placed upon the productive capacities of the economy during the period covered by the survey. In addition, information on the relative size of the capital expenditures program planned, both in total and for individual industries, gives an indication of the views management holds on prospective market demands in relation to present productive capacity.

Non-capitalized repair expenditures on structures and on machinery and equipment are also given in the report but are shown separately. By including outlays for repairs, a more complete picture is provided of all demands likely to be made on labour and materials in accomplishing the program.

## Introduction

Les totaux de la présente publication correspondent aux chiffres des niveaux inférieurs des 20 groupes principaux de l'activité manufacturière figurant au tableau 3 de la publication *Investissements privés et publics au Canada* (n<sup>o</sup> 61-205 au catalogue). Les dépenses réelles dans les deux publications pour les années 1960-1977 sont par conséquent basées sur les mêmes enquêtes auprès des entreprises s'occupant de fabrication.

Aux fins de la présente publication de statistiques historiques, les données de 1960 à 1971 sont basées sur la classification des activités économiques de 1970, et tous les chiffres de cette publication représentent les estimations finales.

Ces renseignements sur les projets d'immobilisations fournissent des indications utiles quant à l'état du marché dans l'économie en général et dans certaines industries particulières. Comme ces dépenses représentent une partie importante mais toujours variable des dépenses nationales brutes, l'envergure du programme des investissements et sa répartition entre les différents secteurs donnent une idée de la demande particulièrement aléatoire que les producteurs canadiens auront à satisfaire au cours de la période en cause. De plus, ces renseignements sur l'importance relative des immobilisations projetées dans l'ensemble du pays et dans les industries déterminées permettent de connaître les prévisions des chefs d'entreprises pour ce qui est de la demande en fonction de la capacité actuelle de production.

Le rapport comprend aussi, quoique sous une rubrique distincte, les sommes destinées à la réparation non-capitalisée d'immeubles et de machines et d'outillage. L'inclusion de ces sommes donne une idée plus juste des besoins de main-d'œuvre et de matériaux que représentera l'exécution du programme.

## FOOTNOTES

- (1) The totals for all major groups equal the totals published in *Private and Public Investment in Canada*, Table 3 (Catalogue 61-205). The sum of the sub-industries for the construction (columns 1 and 4) and machinery and equipment (columns 2 and 5) for this particular year will not equal the major group totals since some expenditures figures have been suppressed.
- (2) All sub-industries which cannot be shown separately because of the confidentiality clauses of the Statistics Act are combined in this "Other" grouping.
- (3) Included with fruit and vegetable processing.
- (4) Includes poultry processors.
- (5) The 1960 to 1971 data are included with miscellaneous textiles.
- (6) The data for 1960 to 1971 includes automobile fabric accessories.
- (7) The 1960 to 1971 data are included with miscellaneous electrical products.
- (8) The 1972 to 1977 data are included with miscellaneous electrical products.
- (9) The 1960 to 1971 data are included with miscellaneous non-metallic products.

## NOTES

- (1) Les totaux pour tous les groupes majeurs sont identiques à ceux publiés dans *Investissements privés et publics au Canada* (n<sup>o</sup> 61-205 au catalogue) (tableau 3). L'addition de ces sous-groupes pour la construction (colonnes 1 et 4) et les machines et équipement (colonnes 2 et 5) n'égalent pas les totaux du groupe majeur à cause de certaines dépenses qui ont été supprimées.
- (2) À cause de certaines restrictions de la loi sur la statistique, tous les sous-groupes qui ne peuvent être indiqués séparément sont combinés sous la rubrique "Autres".
- (3) Compris avec "préparation de fruits et de légumes".
- (4) Comprend la préparation de la volaille.
- (5) Les données de 1960 à 1971 sont comprises dans "textile divers".
- (6) Les données de 1960 à 1971 comprennent les accessoires en tissu pour automobile.
- (7) Les données de 1960 à 1971 sont comprises dans "produits électriques divers".
- (8) Les données de 1972 à 1977 sont comprises dans "produits électriques divers".
- (9) Les données de 1960 à 1971 sont comprises dans "produits minéraux non métalliques divers".

## Statistical Notes

### Definitions

Capital expenditures include the cost of procuring, constructing and installing new durable plant and machinery, whether for replacement of worn or obsolete assets, or as additions to existing assets. Also included are all capitalized costs such as architectural, legal and engineering fees, as well as the value of capital assets put in place by firms with their own labour force. Gross outlays are reported without any deduction for scrap or trade-in value of old assets. Excluded are expenditures made for the acquisition of existing or used equipment, unless imported, and for land, since outlays of this type involve only the transfer of property and not the creation of a capital asset.

Construction includes building construction and all types of engineering construction such as roads and petroleum refineries. The machinery and equipment category takes into account the purchase of all such items which are used either in producing goods or providing services. Such machinery would include various types of industrial machinery, automotive equipment, professional and scientific equipment, various office equipment, furniture and furnishings, and other related capital goods.

The intention is to include the cost of all new plant and equipment which normally has a life of more than one year. For this reason companies were asked to report, as capital expenditures, all purchases to be charged to fixed asset accounts. This method of reporting omits certain types of equipment which are bought regularly out of ordinary revenue and charged to current account. Adjustments have been made where necessary to take account of such omitted capital items and separate figures are shown in the tables as "capital items charged to operating expenses".

The repair expenditures shown in the tables represent the non-capitalized outlays made to maintain the operating efficiency of the existing stock of durable physical assets. Where the repair costs are large enough to materially lengthen the expected serviceable life of the asset, increase its capacity or otherwise raise its productivity, they are treated as capital expenditures on new construction or on new machinery and equipment.

### Methods

The figures in the various tables of this report are estimates of total expenditures. In order to approximate full coverage for Canada, adjustments were made to allow for the smaller firms which are not surveyed and for firms which did not report. In manufacturing, the method used to inflate the reported expenditures was to multiply the known expenditures by a factor obtained by dividing the total value of shipments for the most recent year available of all the firms in each industry by the corre-

## Renseignements statistiques

### Définitions

Les immobilisations comprennent le coût d'acquisition, de construction et d'installation de nouvelles usines et machines durables, qu'il s'agisse de remplacer des biens usés ou déshabillés ou d'ajouter aux installations existantes, ainsi que tous les frais portés au compte de capital, comme les honoraires d'architectes, d'avocats et d'ingénieurs, et la valeur des travaux effectués par le propriétaire par l'entremise de ses propres ouvriers. Le rapport indique les dépenses brutes, sans déduction pour la valeur des biens mis au rancart ou cédés en échange de biens nouveaux, mais il ne comprend pas les achats de constructions existantes, de machines ou d'équipement usagés, à moins qu'ils n'aient été importés, ni de terrains, puisque dans ces cas il s'agit d'une simple cession des droits de propriété et non de la création d'un bien nouveau.

La construction comprend les bâtiments et tous les travaux de génie, comme les routes et les raffineries de pétrole. Dans le secteur des machines et de l'outillage, les achats comprennent tous les articles employés à la production de biens et de services. Sous cette rubrique sont inclus, en plus des machines industrielles, le matériel automobile, le matériel professionnel et scientifique, les ameublements de bureaux et autres biens capitaux du même genre.

On a visé à inclure le prix de toutes les nouvelles usines et de nouvelles machines et outillage d'une durée normale de plus d'un an. C'est pourquoi on a demandé aux sociétés d'inscrire comme immobilisations tous les achats devant être portés au compte de capital fixe. Ainsi, il n'est pas tenu compte de certains éléments d'actif achetés régulièrement au moyen de recettes ordinaires et postés au compte courant. Des rajustements ont été faits lorsqu'il a semblé nécessaire de tenir compte de ces éléments et les sommes en cause figurent aux tableaux sous le titre "biens-capitaux imputés sur les dépenses d'exploitation".

Les dépenses en réparation, figurant dans les tableaux, représentent les déboursés non capitalisés effectués en vue de maintenir les biens matériels durables en bon état de fonctionnement. Lorsque ces dépenses atteignent des sommes suffisantes et qu'elles ont pour effet d'accroître la durée prévue ou la productivité d'éléments d'actif, elles sont considérées comme des immobilisations en constructions neuves ou en machines et outillage neufs.

### Méthodes

Les chiffres qui apparaissent dans les divers tableaux sont des estimations des dépenses globales. Afin de se rapprocher le plus possible du total pour tout le Canada, on a effectué des rajustements de façon à faire la part des plus petites entreprises qui n'ont pas fait partie de l'enquête ou n'y ont pas répondu. Pour le secteur de la fabrication, la méthode employée pour gonfler le montant des dépenses en immobilisation déclarées consiste à multiplier ce dernier par le facteur du rapport de la valeur totale des expéditions, pour l'année la plus récente, de toutes les

sponding total for the firms reporting in the current surveys. The use of shipments as a related indicator provides a framework of analysis in the estimation procedures to take account of relevant industry characteristics such as the size of firms. Expenditures reported by establishments for which no production or other basic data are available are included as "net additions". It is believed that the estimating procedures for non-reporting firms, do not introduce any great margin of error into the total.

#### Construction Expenditures, by Type of Structure

For details of construction activity by type of structure see the publication *Construction in Canada* (Catalogue 64-201).

The statistics for these types of structures come from the same capital and repair expenditures surveys that produce *Private and Public Investment in Canada, Outlook* (Catalogue 61-205) and *Investment Statistics — Manufacturing sub-industries and selected energy related industries, Outlook* (Catalogue 61-214).

entreprises ayant répondu à l'enquête courante, suivant la disponibilité des données. L'utilisation des expéditions comme indicateur connexe insère une analyse d'ensemble dans les procédures d'estimations afin de tenir compte des caractéristiques pertinentes tel que la grosseur d'une entreprise. Les projets mentionnés par les entreprises à l'égard desquelles aucun renseignement en matière de production ou autre ne pouvait être obtenu, sont inscrits comme "additions nettes". Il y a lieu de croire que la formule d'estimation employée à l'égard des entreprises qui n'ont pas répondu au questionnaire, n'a pas pu fausser sensiblement le montant global.

#### Dépenses de construction, par genre de construction

On trouvera dans la publication *La construction au Canada* (n<sup>o</sup> 64-201 au catalogue) le détail des travaux de construction selon le genre.

Les statistiques pour ces genres de construction nous proviennent des mêmes enquêtes d'immobilisations et de réparations, dont les résultats apparaissent dans les publications *Investissements privés et publics au Canada. Perspectives* (n<sup>o</sup> 61-205 au catalogue) et dans *Statistiques des investissements — Sous industries manufacturières et certaines industries énergétiques. Perspectives* (n<sup>o</sup> 61-214 au catalogue).

## SELECTED PUBLICATIONS DEALING WITH CONSTRUCTION ACTIVITY

### Catalogue

#### Annual

- 61-205 Private and Public Investment in Canada, Outlook, Bil.
- 61-206 Private and Public Investment in Canada, Mid-Year Review, Bil.
- 61-214 Investment Statistics — Manufacturing Sub-Industries and Selected Energy Related Industries, Bil.
- 61-215 Capital Expenditures of Domestic and Foreign Controlled Establishments in Manufacturing, Mining and Forestry, Bil.
- 64-201 Construction in Canada, Bil.
- 64-203 Building Permits, Bil.
- 64-204 The Mechanical Contracting Industry, Bil.
- 64-205 The Electrical Contracting Industry, Bil.
- 64-206 The Highway, Road, Street and Bridge Contracting Industry, Bil.
- 64-207 The Non-Residential General Building Contracting Industry, Bil.
- 64-208 The Residential General Building Contracting Industry, Bil.
- 64-209 The Heavy Engineering Contracting Industry, Bil.
- 64-210 The Special Trades Contracting Industry, Bil.

#### Monthly

- 64-001 Building Permits, Bil.
- 64-002 Housing Starts and Completions, Bil. (Formerly New Residential Construction)

Bil. — Bilingual

In addition to the selected publications listed above, Statistics Canada publishes a wide range of Statistical reports on Canadian economic and social affairs. A comprehensive catalogue of all current publications is available free on request from Statistics Canada, Ottawa (Canada), K1A 0T6.
